

**RadioAstron International Science Council meeting 2014***8 August 2014, 14:00, Sternberg Astronomical Institute (room 48), Moscow**9 August 2014, 09:00, Space Research Institute (IKI, room 200), Moscow**[10 August 2014, 10:00, IKI: science team meetings]***8 August 2014, start at 14:00, Sternberg Astronomical Institute (room 48):**

14:00

Greetings - Kardashev, Kovalev, Edwards 10 min

Review of Agenda and main discussion points of the meeting - Edwards 10 min

Review of Suggested Appointments - Edwards 10 min

*Supporting documents: RISC2014 agenda*

14:30

Health of SRT - Artyukhov 20 min

14:50

Tracking station status

Pushchino - Smirnov/Kovalenko 15 min

Green Bank - Smirnov/Dickman 15 min

South Africa - ASC/Colafrancesco 10 min

15:30 - Coffee break

16:00

Correlation

ASC correlator status - Kostenko 15 min

Bonn correlator status - Lobanov 10 min

JIVE correlator status - Gurvits 9 min

DiFX in Australia - Edwards 1 min

16:35

RadioAstron archive and data transfer status and issues - Shatskaya 15 min

16:50

Orbit

Status, evolution, reconstruction accuracy - Stepanyants 20 min

PRIDE status, results - Gurvits 10 min

Options for an orbit change - IPM, Kovalev to lead discussion 40 min

18:00 End day one

9 August 2014, Space Research Institute (IKI, room 200), start at 9:00:

9:00

Ground facility comments with their experience from participation  
in ESP, evaluation of AO-1 and AO-2 GRT proposals, plans for AO-3 90 min

*Every presentation <=5 min long to allow for a discussion of the GRT support of RadioAstron during AO-2 and AO-3, how (is it possible, what is needed?) to increase the amount of support for RadioAstron as well as ease the case for science teams of getting GRT time.*

*Institutional members of the RISC:*

Evpatoria - Larionov

IoAA / Kvazar network - Ipatov

MPIfR - Zensus

IRA/INAF - Giovannini

NRAO - Dickman

EVN - Garrington

Jodrell Bank - Garrington

CASS (LBA including Tid) - Edwards

NCRA/GMRT - Bhal Chandra

ASTRON/WSRT - Vermeulen

Robledo (host country time share) - Rizzo (in writing)

ISAS JAXA / Usuda - Asaki

Shanghai - Zheng

Other ground facilities not present at the meeting (Arecibo, Yebes, Torun, Goldstone, etc.) -  
Kovalev

10:30 Coffee break

11:00

ESP and AO-1 KSP reports 120 min

*Every presentation 10 min long concentrating on the current status, plans for analysis and publications to allow for discussions of results and how to increase the amount of publications quickly and substantially. Do not repeat COSPAR presentations.*

AGN survey (ESP and KSP) - Kovalev

Pulsar survey (ESP and KSP) - Popov

Imaging of nearby AGN (KSP) - Lobanov

Polarization imaging of AGN (KSP) - Lobanov

Internal structure of AGN jets (KSP) - Lobanov

Maser survey (ESP and KSP) - Alakoz

Flaring objects with RadioAstron (KSP) - Sokolovsky

13:00 - Lunch

14:00

RadioAstron AO-2 proposal call and review

RadioAstron mission report - Kovalev 10 min

RPEC report and comments - Jauncey 10 min

AO-1/AO-2 implementation - Kovalev 20 min

*Supporting documents: RadioAstron monthly schedules, RPEC AO2 announcement documents and RPEC report*

14:40

AO-3 call

(KSP, GOT, ToO, deadlines, proprietary period for ToO, directors time, RPEC membership)  
- Kovalev/Edwards 40 min

15:20 Coffee break

15:50

General and technical RA publications - Kovalev 5 min

EPO activities - all 15 min

RA future meetings - Popov/Kovalev 10 min

16:20

Any remaining discussions, preparation of RISC resolutions 80 min

Review of action items, appointments, next meeting, and closing - Edwards 20 min

18:00 - end of day 2

19:00

RISC-2014 dinner in Chayhana near IKI (10-15 min walking distance from IKI)

10 August 2014, start at 10:00, IKI 7th main floor, several different offices

Is organized by the following science teams:

- on AGN,
- on masers,
- on pulsars,
- on gravity experiments.
- ...

The Kaluzhskaya shopping center is suggested as a lunch place for 10 August 2014.
