The Space Radio Telescope is unfolded!

It is difficult to express how happy we are to report that the space radio telescope on board the Spectr-R space craft was successfully unfolded today.

This is an extremely important milestone for the mission and a significant achievement which resulted from a hard work of hundreds of people in Russia during many years. Thank you and congratulations!

With best regards,
Nikolai Kardashev (nkardash@asc.rssi.ru)
Yuri Kovalev (yyk@asc.rssi.ru)
